Objection to Court Order.

Comes now by special appearance James-Phillip,

I am objecting to the Court Order Dated 10/31/2022.

Denying my motion. From the statements that

the Judge made in the Order she seemed

to have assumed that I have some type

of belief or familiarity with the Sovereign

Citizen movement, and some type of odd

belief or misunderstanding about the

14th Amendment. My intent for filing the motion had nothing to do with the issues she raised in her order. Therefore I have the right to correct the error that she pointed out in her order. The error that she pointed out was that I did not assign which U.S. Attorney that the Interrogatory Questionnaire was for. The U.S. Attorney that I sent the Interrogatory Questionnaire to was Michael John Romano. It is also my right to bring forth any new discovery of information that was not disclosed to me by this Court, or my Attorney.
