

February 12, 2022

To American Patriots everywhere:

My wife is a Chinese immigrant who escaped Communist China, a place where concentration camps exist at this very moment. A place where protestors and political dissidents are routinely jailed and killed.

I am an American Citizen and a January Sixer. Yet, from the first day I was arrested and multiple times after, I have been given a choice by the FBI—cooperate and get a sweetheart deal or suffer and be tortured in jail until I break.

I am being treated like a Chinese political dissident, and I need your help.

I have been tortured during my ten months in jail. I was purposefully infected with COVID. I have been moved to seven different jails where my rights have been violated time and time again. I have spent many months in solitary confinement.

I have a very serious case of celiac disease. The BOP knows this but regularly feed me food containing wheat gluten which poisons my system. I lost 28 pounds after one previous move and almost died. I am weak. My organs are being irreversibly damaged. I am down almost 30 pounds after my most recent move to Northern Neck Regional Jail. I fear that I may die here.

The FBI swarmed me during my arrest as if I were a high-ranking Al-Qaeda operative. They took me from my son when he was just eight weeks old. He turned one year old on February 5<sup>th</sup>, and I am absolutely devastated that I was not with him.

I am asking my fellow patriots for help. From one patriot to another, please send Nathan a card wishing him an albeit belated happy birthday. Please also if you can contribute to my legal defense fund so I can have a fair fight in court. Joe McBride is a patriot and a good lawyer. He needs resources to make sure that I have a fair fight in court.

Maybe... hopefully, in a few years from now when my son Nathan hears the story of how Dad got arrested... Your cards will help him understand why I couldn't be there with him for his first birthday, and your donations will get me there to him by his second.

God bless America.

Let's go Brandon!
