

UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF COLUMBIA

UNITED STATES OF AMERICA	:	
	:	
v.	:	1:21-cr-00177-CRC
	:	
	:	
DANIEL D. EGTVEDT,	:	
	:	
Defendant.	:	

**GOVERNMENT’S RENEWED MOTION TO REVOKE DEFENDANT’S PRETRIAL
RELEASE OR IN THE ALTERNATIVE FOR AN EARLY STATUS HEARING**

The United States of America, by and through the Acting United States Attorney for the District of Columbia, hereby renews its motion (doc. 27) to revoke the defendant’s release or in the alternative for an early status hearing, prior to the scheduled date of June 3, 2021.

Following the defendant’s response (doc. 28) to the government’s original motion the Court issued a minute order requiring the Pretrial Services Agency to inform the Court, by 10 a.m. on May 7, 2021 (i.e., today), whether new location-monitoring equipment, expected to be installed on May 6, 2021, “was successfully installed and whether it is functioning.” Earlier today, the government received an email (pdf copy attached) from the U.S. Probation and Pretrial Services, District of Maryland (which is conducting courtesy supervision of the defendant), indicating that the new equipment does not function adequately.

Accordingly, the government is renewing its motion.

Respectfully submitted

CHANNING D. PHILLIPS
ACTING UNITED STATES ATTORNEY

Colleen Kukowski
Assistant United States Attorney

Subject: Docket No.: CR21-000177 USA v. Daniel Egtvedt - Electronic Monitoring Equipment Update

Good morning,

I held off on writing you both yesterday as I wanted to ensure the equipment I installed would continue to successfully monitor Egtvedt. The first piece of equipment I attempted did not work. The second piece of equipment initially was successful. Later in the day, we received notice that the equipment failed to maintain cell signal and signal was not reacquired until roughly midnight. I contacted BI Corporation (who provides the equipment) and they noted due to the remote area, the cell signal strength is temperamental at best. I then advised BI that this was the 7th piece of equipment attempted for the defendant. They said if the prior 6 did not work and this one is having issues, no equipment will consistently work where he is presently residing. The equipment that did temporarily work will continue to go in and out and has done so 3x since yesterday morning. This is not a viable option to monitor him given its ongoing issues.

Our office again requests the Location Monitoring/Home Detention condition be removed, while all other conditions remain in full force and effect, and he continue on pretrial services supervision.

Thank you,

Jeremy Beck
