This device does not project the electrical shock, It must come in contact with the attacker. While using a ZAP® Stun Gun, you cannot suffer a charge-back to your own body, even if the attacker is holding you.

BATTERIES: Test fire your ZAP® Stun Device periodically for familiarity, performance and reliability. You should replace the batteries when the electrical arc gets weak.

Always keep stun guns out of the reach of children. Keep away from flammable gasses, as an explosion may occur. Must be 18 to purchase. ID check required. Check state and local laws regarding product usage.
