Text	I think there probably was a small percentage. My personal observations were police attac king innocent people as no people defending themselves and others. There were also antifa dressed as mags now identified and fbi instigators. The left had a purpose in this. I ce rtainly never expected to be caught up in it. I was just walking past the Capital on my wa y to go home when I was pulled into it. Sometimes I think God had a hand in my plight? M aybe I am of use to Him in this? I don't know.

Tweet Text	As I walked to the Capitol on J6, I thanked officers I passed for their service. Just a couple months previous I had held a back the blue rally and auction using the proceeds to buy body cams for a local small town police dept. I never suspected what I was about to witness.
