Re: *United States v. Patrick McCaughey, Tristan Stevens, Christopher Quaglin, and David Judd 21-CR-40 (TNM) - Production 7*

Dear Counsel:

Pursuant to our discovery obligations, we provided the following files via USAfX on June 14, 2021:

- All the files listed on the attached index.

Most of these files were already previously provided in Production 2 as documented in the April 8, 2021 letter. (They are now being re-provided with bates-labels. Specifically, this production includes: **CAP02\_000009137 - CAP02\_000010201**.)

As referenced in the cover letter for Production 2, there were a few physical attachments (files that had been stored on a disk) that were not included in Production 2 but are being included now.

The production includes both a PDF and Native folder. The PDF folder contains discovery in searchable Adobe format. The NATIVE folder provides native files for the items that cannot be processed, such as audio/video recordings. Files not processed will have a "placeholder" that references the native file. The placeholder will indicate the Bates number so that you can easily find the native at the same number in the NATIVE folder.

Second, the production also includes a DATA, IMAGE, and TEXT folder.

Some defense counsel prefer to just use the index mentioned above and the PDF and NATIVE folders. Other defense counsel will prefer to build a document review database. We are providing you with both formats so that you can determine what works best for you.

Due to the extraordinary nature of the January 6, 2021 Capitol Attack, the government anticipates that a large volume of materials may contain information relevant to this prosecution. These materials may include, but are not limited to, surveillance video, statements of similarly situated defendants, forensic searches of electronic devices and social media accounts of similarly situated defendants, and citizen tips. The government is working to develop a system that will facilitate access to these materials. In the meantime, please let me know if there are any categories of information that you believe are particularly relevant to your client.

Please contact me if you have any issues accessing the information, and to confer regarding pretrial discovery as provided in Fed. R. Crim. P. 16.1.

This material is subject to the terms of the Protective Order issued in this case.

I recognize the government's discovery obligations under *Brady v. Maryland*, 373 U.S. 83 (1963), its progeny, and Rule 16. I will provide timely disclosure if any such material comes to light. Consistent with *Giglio, Ruiz*, and 18 U.S.C. § 3500, I will provide information about government witnesses prior to trial and in compliance with the court's trial management order.

I request reciprocal discovery to the fullest extent provided by Rule 16 of the Federal Rules of Criminal Procedure, including results or reports of any physical or mental examinations, or scientific tests or experiments, and any expert witness summaries. I also request that defendant(s) disclose prior statements of any witnesses defendant(s) intends to call to testify at any hearing or trial. *See* Fed. R. Crim. P. 26.2; *United States v. Nobles*, 422 U.S. 255 (1975). I request that such material be provided on the same basis upon which the government will provide defendant(s) with materials relating to government witnesses.

Additionally, pursuant to Federal Rules of Criminal Procedure 12.1, 12.2, and 12.3, I request that defendant(s) provide the government with the appropriate written notice if defendant(s) plans to use one of the defenses referenced in those rules. Please provide any notice within the time period required by the Rules or allowed by the Court for the filing of any pretrial motions.

I will forward additional discovery as it becomes available. If you have any questions, please feel free to contact me.

By:
