Status Dear Patriots, I'm organizing a caravan of patriots who are going to Washington D.C. to stand behind our president @[153080620724:274:Donald J. Trump]. I posted about this last week and a got almost a dozen messages from people asking how they can help or expressing their wish to participate somehow.

@[100005928300442:2048:Josiah Colt], Nate DeGrave, and myself have already booked and paid for our trip to Washington D.C. but we could use your help and support! Every dollar you contribute to us is a smack in the face to Antifa. Every penny is a boot in the ass against tyranny. Every Buffalo nickel is a body slam against China. If you can't be there in person this is the next best thing. We will be documenting our journey and every contributor will get a personal thank you video shot on location in Washington D.C. and will be featured as a contributor on the video mini documentary. Share, comment, like, and hate on us in the comments.

Text It's time to fight for the freedom of this country from getting bulldozed by the domestic terrorists in office pushing Chinese communist agendas and ideology while stripping our freedoms away one by one. Now is the time to fight.

Text The whole politicization of wearing a mask was not only idiotic but damn near criminally irresponsible! Had trump given a damn, and not been solely focused on his own agenda, he might have stepped up to the task and actually behaved like the leader of a country, rather than trying to look good for his cult members. While he's not 100% responsible for what we're facing today, he's far more so than any other person involved simply due to the selfish decisions he made and the examples he set. Of course all his impressionable "followers" who somehow refused to grasp the simple science behind the suggested protocols didnt/don't help matters either, and the fact that there's STILL resistance toward the simple means and sacrifices that could (have) contain the transmission and spread just astounds me in the face of the infection/death rate of the last week or two. What the fuck is it gonna take for these brainwashed, yes, morons to understand what needs to be done?

Body Basically you have to get legal representation and get your affairs together because one stay put out a warrant or indictment and it's made public you can't hide for very long otherwise you're evading arrest and that's even worse but if you have an attorney than they can call them and negotiate your surrender and you can take a few days to get everything in order it buys you a little extra time
