To Whom it May Concern,

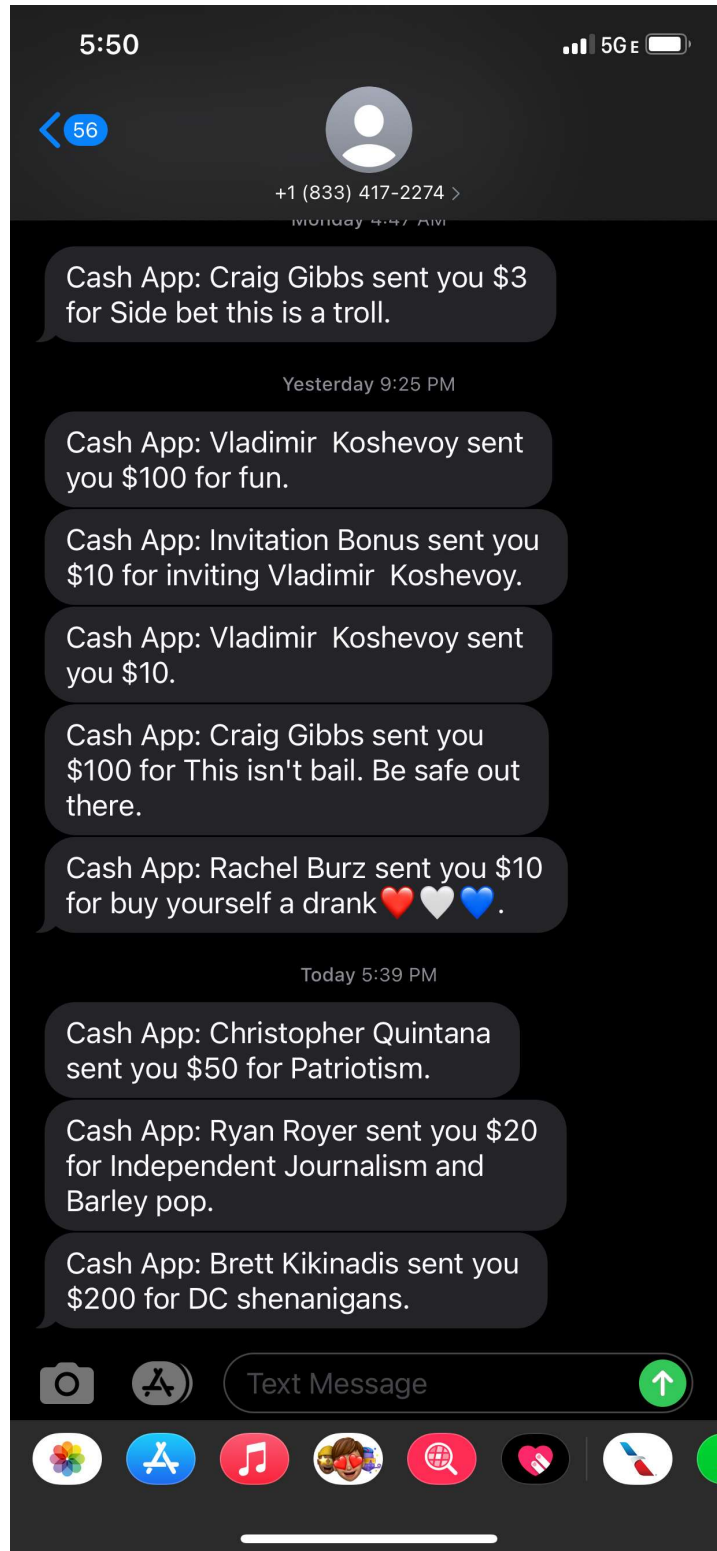

I would like it known that [OpsLens.com](http://OpsLens.com) asked Mr. Witzemann to try and stream the rally on the Mall on 6 January 2021. He was asked to use his phone to stream the rally using the OpsLens app. We had technical difficulties with the video streaming on the app and as a result the stream wasn't able to be broadcast. In lieu of the stream, It was hoped he would be able to record some phone video that might be able to be used at a later date with other shows; possibly being a guest on many of the shows hosted on the app to discuss his perspective. Our understanding was his intention to go to the rally was to comment and report on what was going on at the rally.

Sincerely,  
Ron Hammond  
CEO  
OpsLens
