

## Request:

To Honorable Judge Fredrick

Dear honorable judge Fredrick;

I respectfully request the postponement of Daniel Johnson's incarceration date.

### **Daniel Johnson's duties as foreman/sales**

- Daniel is onsite before 7am to prepare the equipment for the day and manage all the employees to insuring timely arrival.
- His days are consumed with managing the onsite roofing and gutter install crews as well as managing sales calls and potential customers, all while addressing the concerns of existing customers & estimating their projects in a timely manner.
- Daniel handles all W4/1099 employees with that comes managing the project from start to finish insuring quality control and producing all paperwork necessary to finalize billing.
- End of day Daniel tracks all time sheets & work completed on every project and is responsible to manage billable hours per employee.
- Daniel is currently working on 33 files due to the recent storms.
- I will be losing the most productive salesman along with the most prolific crew manager I have ever seen.
- Due to the recent storms in our area we are overloaded with customers and the loss of Daniel will be devastating to my operation.

Daniel manages the stress and chaos of his many positions at a very high level. He is essential in how my business strategizes where, when & what project we do by staying in tune with the crews. It is going to be almost impossible to fill his shoes. We are actively working to lessen the negative impact of his temporary incarceration. He and I are actively grooming two others on my team to manage his duties and "hold down the fort" while he is away.

I am at your mercy & would respectfully request his incarceration date be set out to 11/15/22 if possible, this date would allow for the majority of the work season to be completed and allow the incarceration period to commence during our slow season. Thank you for your thoughtful consideration and attention to my concerns.
