

- no mail [redacted] @dc.
- Has not been int. about Jan 6 before.
  - Been w/ MPD 5 yrs - Patrol officer 6th District
  - was same pos. on 1/6
  - Assigned to CDU 41 - crowd control
  - Diff. than normal assign. but knew the assignment before
  - Supposed to report sometime in the morning
  - Didn't know when he showed up exactly where he'd be
  - Dressed in full police uniform - Patrol <sup>working</sup> radio, etc.
  - Didn't really know spec. why he was on CDU that day
  - had helmet, gas mask, collapsible baton
  - Doesn't remember exactly where he was sent but not the Capital → remem. at some point going to the Capital & thinks it was the afternoon.
  - Turned BBC when arrived at Capitol about 14:39 acc. to time stamp.
  - Doesn't remem. where he was told to go, just followed squads.
  - Never policed at Cap. & had been there maybe once.

There were civilians on side of where they were yelling & screaming.

Objective - told to hold the line & standby,  
prevent people from going past.

- Weather - overcast, cold, grd was muddy

- Vaguely remembers Barnett. Was arm's  
length from him. (when shown his speech  
on his BWC).

15:23:35 - He remembered this part when  
B. said "I own this."

A lot of people were saying a lot of things that day.

- Doesn't remember seeing him at any other  
times.

d just  
sort of  
tuned  
them  
out.

15:27:17 - Doesn't really know what the  
thing is in his hand.

- He did not mace any one. Didn't deploy  
mace. After they pushed everyone back,  
he went into the building but no one  
was left in the building that wasn't supposed to.

- Was constantly wondering what was going to  
happen next & why they were just standing  
there holding the line.

- Other agencies w/ full gear came to assist  
lined up in front of them w/ shields.

- One guy tried to steal his baton. The guy went to the ground + he was able to retain his baton.
- Didn't sustain any injuries.
- Remembers being hit by something in the forearm + the head
- Anyone standing there was wondering what they were trying to accomplish.
- He ~~was~~<sup>felt</sup> threatened when they tried to take his baton.
