walked laterally to USC, on paths
pulled up on Indeed, by bay based on map
got geared up before going up
Approach

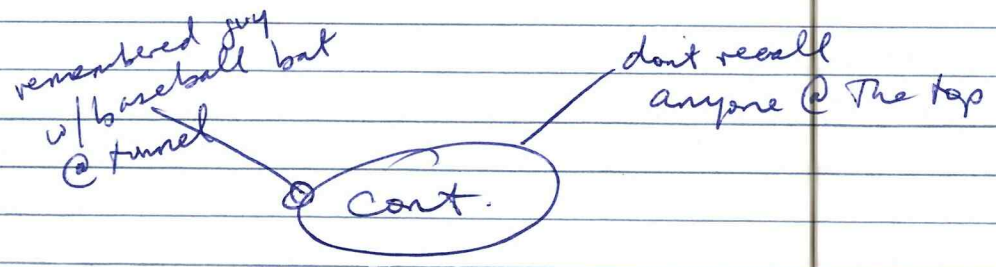
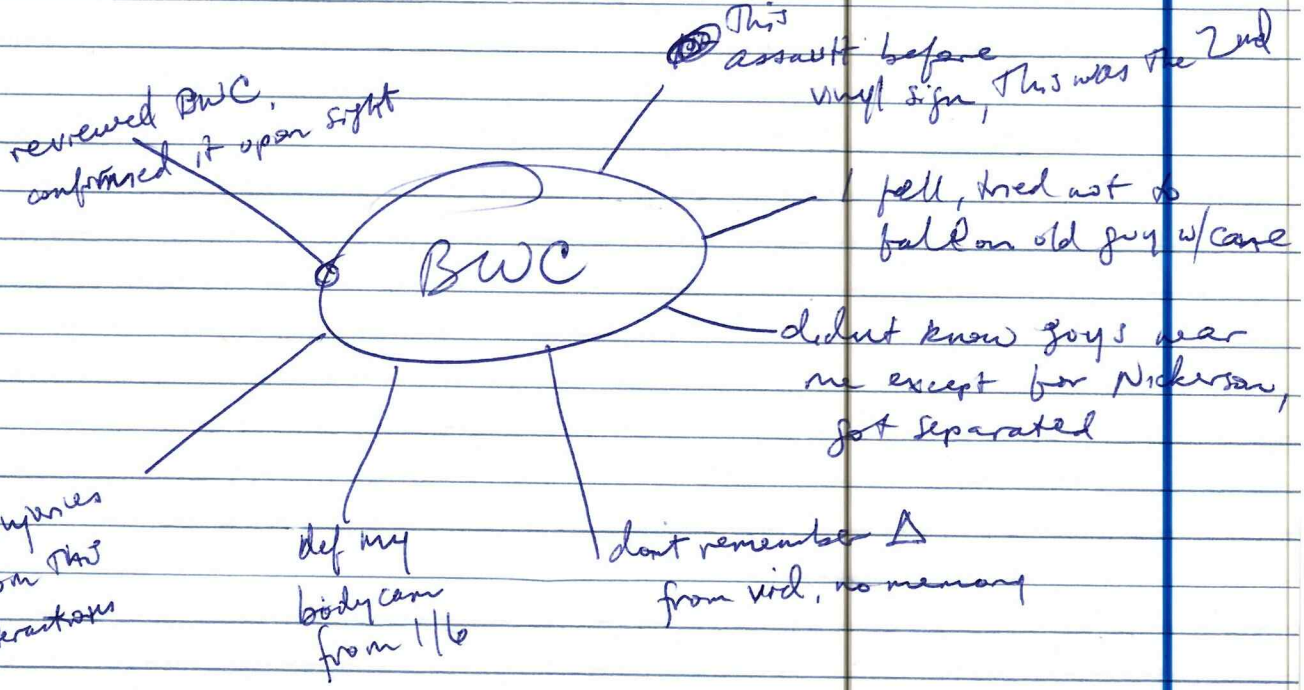
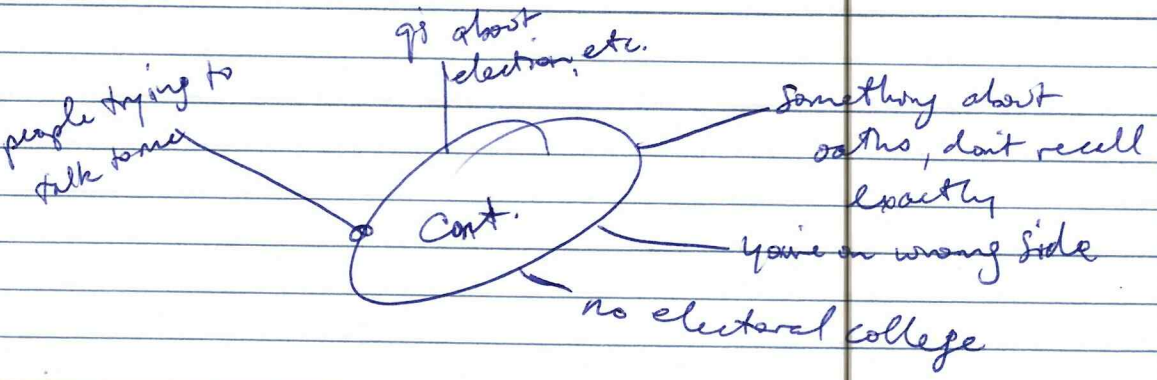
don't remember if fencing
1st encountered crowd by scaffolding on S side
Seemed like gen. protest @ that pt.
there was an MPD official, white shirt, black jacket, cap w/ gold leaf
1st interactions
he was coming back towards us, coughing
we came around Sterrace, saw plumes of smoke
started encountering people on the Terrace, formed up on NW, don't recall exactly - we were just beyond scaffolding, near flight of stairs
I was stationary in one spot, wasn't there long
on my L
2nd time used bag white vinyl sign to sneak under, I don't know what they were thinking, got replaced soon after up there
stayed to rest as 2-3 times we stopped them
But said it was 1.5-2 hrs
Cont.
Shields replaced us
I went inside to go to bathroom, came out to NW Courtyard (?), suspended to tunnel
heard taser go off
helped folks in the tunnel for an hour

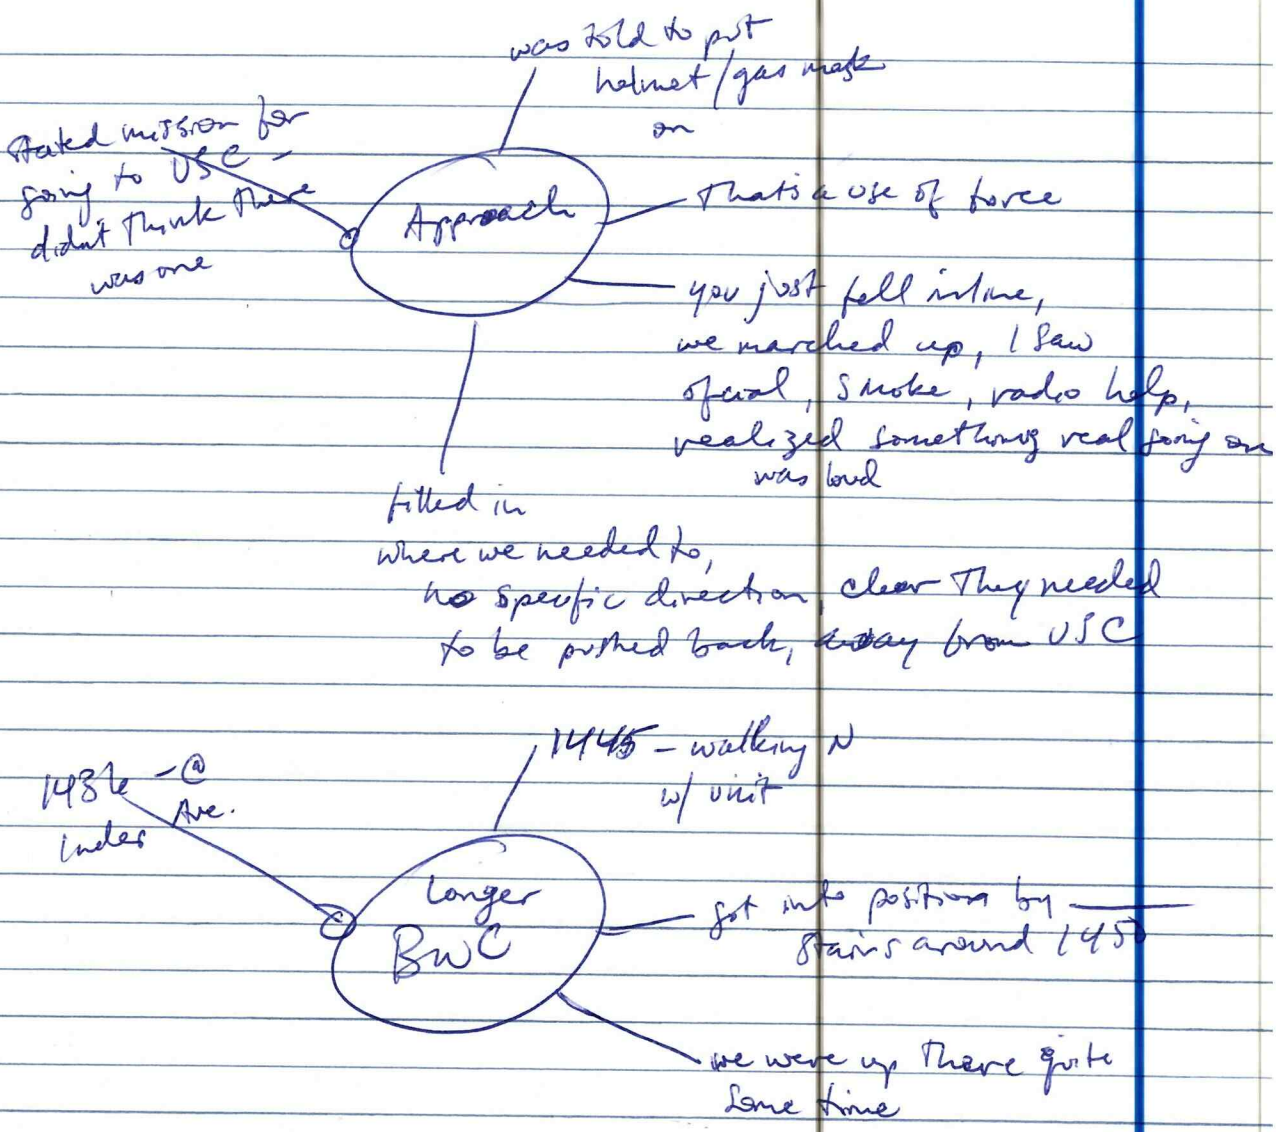


We were stopping people from coming up the stairs





Do recall 2-3 efforts to repel crowds, a lot of people coming, Δ was part of mass based on BWC



It was a protest to me, same as what we'd been dealing w/all summer, diff group of people

What you think of that day — you want to protest, it went too far, The stupidity of it, when you use violence, it's too far

I posted that day on FB that I was safe and there granderson

Haven't testified in any J6 proceeding, # 1 FBI agent over a yr ago re tunnel
