Dear Paul F.Enzinna

My name is Andrea Ranney, I'm writing to you concerning my son Luke Lints, and I'm going to state to you how I know my son Luke Lints, and why I think he did what he did on January 6th 2022. My son Luke grew up in poverty and emotional abuse from his father and the ties the bind them together still, Luke's dad is A radical with ideas of guns and so called hostile people in politics, his dad has indoctrinated his mind into thinking end of the world is coming and food famine and its entirety. His dad has scared me in what he thinks , in so much it's kept me away from them , he is a scary man with his radical ideas , and has scared others, I also know Luke knows right from wrong, and has made a good life for himself in so many awesome ways, I can't help to think why Luke did what he did January 6th 2022, maybe he was filled with his dads radical ideas??? I can't help not to think this... I've always been very concerned about Luke and how he handles difficult ways in life.. I tried to be a good mom to him in every way possible I love Luke with all my heart, and it saddens me how this is affecting him, Luke's a great guy !! He's had his struggles!! And his dad sadly doesn't care about feelings. I do and forever will back my son Luke Lints!!!

Sincerely Andrea Ranney...
