

Brian Scott Jackson is my fiance and we have been living together for several months. The strain of him not being here is crushing financially. We were in the process of purchasing my parents house as my mother just passed away and my father cannot support himself. He is elderly and not well. The financial strain has become almost unbearable. His paycheck is greatly needed, and he does still have a job to come home to. Randy Nesbitt at Melton Electric can verify his employment status is in good standing. His phone number is 2818317202.

Please consider allowing Brian to receive bond to better aide in his defense.

Thank you,
Tamara Perryman
