

To Whom It May Concern :

Scott has been living with my family for awhile and has been very helpfull for me , due to my age, with tasks I can no longer due. Such as replacing wheel bearings and axles on my car. He was great on assisting me transfer my invalid wife from her bed to her wheel chair and then back. His financial assistance has been very much needed due to medical costs for my wife , which has depleted my savings.

Thank You
