UR Buprenorphine Rapid S	NEG			

The specimen was tested for the following drug metabolites on a random urine sample:

Benzodiazepines, Cocaine, Amphetamines, Methamphetamines, Opiates, Methadone, Oxycodone, Tetrahydrocannabinol, Barbiturates, PCP, Propoxyphene, Buprenorphine, and Tricyclic Antidepressants.

Note:

This test is only a screen. A confirmatory method such as GC/MS should be used if results do not fit the clinical picture. Clinical consideration and professional judgement should be applied to any drug of abuse test, particularly when preliminary positive results are used. This screening test alone should not be used for non-medical purposes, such as employment or legal testing.

Please call the lab if further confirmatory testing is desired.

The cut-off concentrations of the tested drugs by this assay are
