

EXHIBIT K

To the honorable Judge Bates

My name is Peter Jordan , I live in Rochester, NH with my wife and daughters. We have been residing in our home since 2003.

I have known Dave Ball since approximately 2005 when we met at our former employer New Hampshire glass. David was assigned to me as an apprentice. He learned fast and was a good worker and employee .He soon was able to take jobs on by himself and we became colleagues and also friends. We worked together until 2015. In this time I can honestly say that he has been a reliable friend and honest employee. He finished jobs in an organized fashion and timely manner. He was a good foreman to other employees that were assigned to his team and everyone liked working with him.

I also have met his former wife and his children. David is a generous man and supports his ex wife as a friend would, and he is especially caring about his children. The apple of his eye is his son Noah, whom he adores. Noah suffers from [REDACTED] and David has been supporting him through his journey with amazing strength and love.

As a fellow father i have to admire his personal strength and perseverance to fight for Noah's health and also be a great father to his other children who are all well rounded ,kind and great kids.

While knowing David he was not only growing his family but he was also reaching for bigger goals, he envisioned starting his own glass company in Maine . He owns a new and thriving business and employs several people. Again he shows how family oriented he is, as his father is also supporting him by working in one of his shops.

We have kept in touch over the years and I have helped David out with a few work projects , I have been able to witness that he is a very supportive and caring employer and friend .

On a personal note I like to mention that he has helped me and my family out a few times, no matter if it was a broken down car or if we needed a hand with diy projects around our home. He is very dependable and honest.

I am convinced that this situation is a once in a lifetime mistake he has made and I know that he did not mean to harm anyone or anything . His main reason for attending was curiosity. I know that he deeply regrets what happened because at no point he would ever do anything to harm his career or his family .

Thank you for taking the time to read and consider this letter as my honest and forthright assessment of David's characte.

Sincerely
Peter Jordan
